Progress Report
Due Wednesday, November 23, 2016

Give a two to three-page summary of your progress so far on your final project:

- Give the title of your project.
- Describe your approach, any findings or results obtained so far, and any problems that you are encountering.
- Describe the work left to be done and the plan for finishing it.

Each member of the team should upload the summary to the Blackboard website (it is ok to upload the same summary), so that I can provide comments to each person.
